

Biosecurity

Farmer Requirements

Cattle Health Management

Biosecurity (BIO) 1: In the past two years, have you completed the biosecurity risk assessment with your veterinarian to identify and address biosecurity risks on your farm?

BIO2: Do you record disease events for, at minimum, cows with these signs (abortion, lameness, mastitis, diarrhea, pneumonia, death) and calves with these signs (diarrhea, pneumonia, death)? (Record 10)

BIO3: Have you established and implemented an SOP, in consultation with your veterinarian, for vaccinating against specific diseases of concern? (SOP 12)

Cattle Additions and Movement

BIO4: Have you established and implemented an SOP, in consultation with your veterinarian, to prevent the introduction of infectious diseases when bringing new cattle into your facilities from other herds? (SOP 13)

BIO5: Have you established and implemented an SOP, in consultation with your veterinarian, to prevent the introduction of infectious diseases by cattle returning to your facilities from other herds, cattle shows, etc.? (SOP 14)

Service Providers, Visitors, Vehicles and Equipment

BIO6: Have you established and implemented an SOP, in consultation with your veterinarian, to prevent the introduction of infectious diseases by family, employees, farm visitors and service providers? (SOP 15)

BIO7: Do you have biosecurity signage posted on the main access point to the farm, which is visible from the main parking area?
