

List of Approved Teat Dips, Solutions, Wipes, Udder Washes And Other Topical Udder/Teat Products

July 5, 2019

Dairy Farmers of Canada would like to thank the Veterinary Drugs Directorate for their collaboration in developing this list of approved teat dips, antiseptic teat solutions, wipes, udder washes and other topical udder/teat products.

This list now also includes Veterinary Health Products (VHPs) which can be used topically on udders and teats. VHPs are veterinary drugs in dosage form that are considered low-risk. VHPs cannot be sold or represented for the use in the diagnosis, treatment, mitigation of a disease, disorder or abnormal physical state, or its symptoms but instead promote or maintain overall good health and wellbeing. Veterinary Health Products which have been notified are issued a Notification Number (NN).

This list is not intended to be all-encompassing and is subject to change, and it is only considered current as of the date above.

The list is alphabetical and not in any order of priority or recommendation.

For additional information:

- Health Canada's Drug Product Database: <https://health-products.canada.ca/dpd-bdpp/index-eng.jsp>
- List of Notified Veterinary Health Products (VHP): <https://health-products.canada.ca/vhp-psa/en/product-list>
- Drug Statuses of products below are 'Marketed' unless stated otherwise:
 - **Marketed:** refers to an active DIN that is currently being sold in Canada.
 - **Approved:** refers to an active DIN that has been reviewed and authorized for sale in Canada but has not yet been marketed in Canada.
 - **Dormant:** refers to an active DIN that was previously marketed in Canada but for which there have been no sales for period of at least 12 months.

TEAT DIPS AND ANTISEPTIC TEAT SOLUTIONS

Note: Consult the product label for further instructions on each individual product.

Product	Manufacturer	DIN	Active Ingredients	Indications	
				Pre-milking	Post-milking
4XLA	Ecolab Co.	02047780	Glycerin, Lactic acid, Sodium chlorite	✓	✓
Achieve	Agrisan Specialty Chemical & Pharmaceutical	02487918 (approved)	Iodine (alkyl poly ethoxy ethanol-iodine complex)	✓	✓
